# VIRTUAL
# Laser Safety Certificate Program
## Saturday, April 17, 2021- 1:00 pm EST

**Course Director:** Dr. Howard Bargman

| **Program:** | | |
|---|---|---|
| | 1300 | Current requirements and Standards |
| | 1330 | Laser physics |
| | 1400 | Laser Risk Factors and Safety |
| | 1430 | Discussion |
| | 1445 | BREAK |
| | 1500 | Interactive Post Course Quiz |
| | 1530 | Adjournment |

*The registrant will be able to apply the theory, science and practice of safely operating light based devices. The registrant will be better able to understand the unique risks and hazards of lasers. The material in this session is important for anyone who owns, rents or uses CLASS 3B or CLASS IV lasers. It pertains to anyone who personally fires the laser or hires someone to fire it on their behalf.*
