PROGRAM OBJECTIVES

Participants will learn laser treatments for hair removal and pseudofolliculitis, and combination treatments for post inflammatory hyperpigmentation. Techniques and options for hair restoration and non surgical facial rejuvenation by Threadlift will be assessed. Learners will learn approaches to treat vascularity and pigmentation in the face. Participants will learn how effective delegation of tasks and structured transfer of care can optimize team functioning and safe medical care.

Learners will review the current media trends, strategies and pitfalls to avoid when developing a media presence.
